Practical Legal Guidance

Our product is designed to solve day-to-day difficulties.

Our Online Legislation File is a digital software allowing you to access the Labor, Tax and Agrarian, previously classified, including updates and comments. With unlimited Access to the advice of our specialized team of accountants and lawyers.

Payroll Settlement

Two possibilities for our best service.

Outsourcing, by entrusting us with all inherent tasks, or subscribing to our online system (SAAS) Hodeian, which you can access 365 days a year from anywhere in the world. Easy, fast and secure.

This new technological Platform Mi portal online radically changes the way HR areas manage documents with their employees.

This system digitally manages processes which were traditionally paper- based such as the delivery and signature of salary receipts, contracts, vacation and license requests, thus obtaining a 100% digital file, saving time and money.
